

Willows Class Zoo Animals – Spring 2

English

This half term the children will continue to develop their understanding of phase 2 and 3 phonemes and use their growing phonetical knowledge to read and write words. During our English lessons we will be finding out information about different zoo animals to write our own fact files and information texts.

Maths

In Maths this half term the children will develop their understanding of place value and direction. The children will use positional language including left, right, above, below, forwards, backwards and turns. They will also continue to develop their understanding of number, counting in different multiples, showing numbers through different representations and rote counting.

Art

Our artwork will be linked to the artist, Picasso. The children will use different materials to create faces inspired by Picasso's work.

Geography

The children will develop their understanding of physical and human features and use geographical vocabulary to name and sort them accordingly.

Science

In science the children will recognise, name and sort different animals. These will include fish, amphibians, reptiles, birds and mammals. They will also research an animal's diet to discover if they are a carnivore, herbivore or omnivore.

Computing

This half term the children will be data explorers. They will group and sort items in different ways. They will also collect their own pieces of data and sort and group this in different ways.

How to get involved at home

Reading books will be sent home but they are needed in school on a daily basis.

Please check Dojo regularly for news and updates.

PE kits are needed for PE on Thursdays.

Don't hesitate to contact us with any questions or concerns. Thank you! **Willows Team**

PSED/EHCP/Lifeskills

The children will continue to participate in a weekly cookery session where the focus will be on following simple recipes. They will continue to develop their independence skills and work on their individual EHCP targets.

PE

The children will demonstrate basic movements including running, jumping and catching. They will develop their balance, agility and coordination and use these in a range of activities and games.
